- Successfully completed React Bootcamp by LetsUpgrade

### PROFILE

"I'm a passionate and detail-oriented computer science graduate with a strong focus on frontend development. I've built personal projects that showcase my skills in HTML, React, and Tailwind CSS. I enjoy solving real-world problems, exploring new technologies, and crafting clean, user-friendly interfaces that enhance user experience."

### PROJECTS

#### Personal Projects

2024 - Present

##### 1. Personal Portfolio Website [🔗](#)

Designed and developed a responsive portfolio website to showcase my skills, resume, and projects.

Tech Used: React, Tailwind CSS, React Router.

##### 2. Real-time Weather Forecast App [🔗](#)

A modern weather application built with React to practice REST API integration using the OpenWeatherApp API. It allows users to search and view real-time weather data by city.

Tech Used: React, API Integration, TailwindCss

##### 3. Currency Converter App [🔗](#)

Built a simple currency converter that fetches real-time exchange rates using an open API.

Tech Used: React, API Integration, CSS

##### 4. Job Portal [🔗](#)

A minimal job portal frontend showcasing job listings and user interaction via props and React hooks. Integrated with Firebase for hosting and project management.

Tech Used: React, Tailwind CSS, Firebase.

##### 5. E-commerce Website (In Progress)

Developing a full-stack eCommerce site with features like product listing, cart, wishlist, and admin panel.

Tech Used: React, Redux Toolkit, Tailwind CSS, Node.js, Express.js, MongoDB

### EDUCATION

#### Master of Computer Science

Smt .Kasturba Walchand College, Sangli

2024 | CGPA : 8.4

#### Bachelor of Computer Science

Willingdon College, Sangli

2019 | CGPA : 6.9
